@laufers

@libdata

My repo: <https://github.com/laufers/setups>

- New machine
  - Check for git
  - Clone repo
  - Move original bash profile
    - `mv bash_profile bash_profile.orig`
  - Link my profile
    - `cd [return]`
    - `ln -s ~/setups/bash_profile .bash_profile`
- Done
